"An incredible story of the Parsees, their identity, their origins and the story of life and death struggle they endured before landing on the shores of India.

- A tortuous journey across the strangest desert in the world!
- A savage feud between two families that spreads through three generations!

This book reveals the first genocide in history; it explains previously less known facts about the Arab conquest of Persia; but most of all... it will keep you on the edge of your seat till the last page.

""The book is excellently written. The plot is gripping and unfolds smoothly""
