This book makes an earnest attempt at providing a detailed overview on the fundamental concepts of Vedic astrology including but not limited to the elements of the Hindu almanac 'the panchangam', nakshatra or birth star, the zodiac sign or rasi and the quality of time or "Hora" from which we derive the 7 days of the week. It illustrates with numerical examples how to compute among other data, the sunrise time as per the Hindu almanac, a native's lagna and horoscope and the dasa and bhukti he/she would be under the influence of at any particular point in time. For the science aficionados the book also introduces and delves into certain astronomical concepts and reconciles them with Vedic astrology in addition to explaining the fundamental difference between Western and Vedic astrology. The book is specially written to cater to the needs and interests of beginners but will find plenty of value with experts as well.

About Unicorn Books

Unicorn Books publishes an extensive range of books that are both affordable and high-quality.
